Ovi Maps for mobile works offline as well as online

Ovi Maps provides a complete navigation and mapping service both in online and offline mode: search and browse the map as well as navigate.

Introducing the new Ovi Maps for mobile now with free navigation:

My position - find your current location easier and faster than ever.

Find places - find places and addresses with the new one box search.

Favourites - save your favorite places and routes. Synchronise them with your Ovi account over the air.

Drive - car navigation with voice and visual instructions, lane assistance and speed limit information. Now also with text-to-speech# voice guidance.

Walk - pedestrian navigation with routing through pedestrian zones and shortcuts, pathways through parks and buildings, stairways and plazas. Now with text-to-speech voice guidance.

Weather - real-time weather information including a 5-day forecast, for your current or any location found via search.

Lonely Planet and Michelin - offer you dynamic access to the best and most relevant editorial travel content for over 1000 destinations. Find thousands of listings for sights, restaurants, hotels, shops, nightlife and more, look these places up on the map and get to them with Walk and Drive navigation.

Events - find out the events happening nearby your location on the map or any place found via search.

Share your location on Facebook - share where you are, what you are up to and finish with a photo.

Explore and extend your Ovi Maps experience with maps.ovi.com on your PC or Mac.

Maps.ovi.com extends your Ovi Maps experience from mobile to the computer allowing you to find and explore places near your location or around the world, create and pre-plan routes online, save places and routes into your Collections, and synchronize them with Ovi Maps on your mobile over-the-air.
